Technical catalogue

Machines for slush and shakes, hot and cold drinks

Granatina/C Carpigiani

Get success every time with a product efficient and easy to sell.

Granatina/C the fully automatic machine for slush and shakes.

The Granatina/C is the best way to meet your customers' needs:

shakes: the ice-cream you drink through a straw in various flavours.

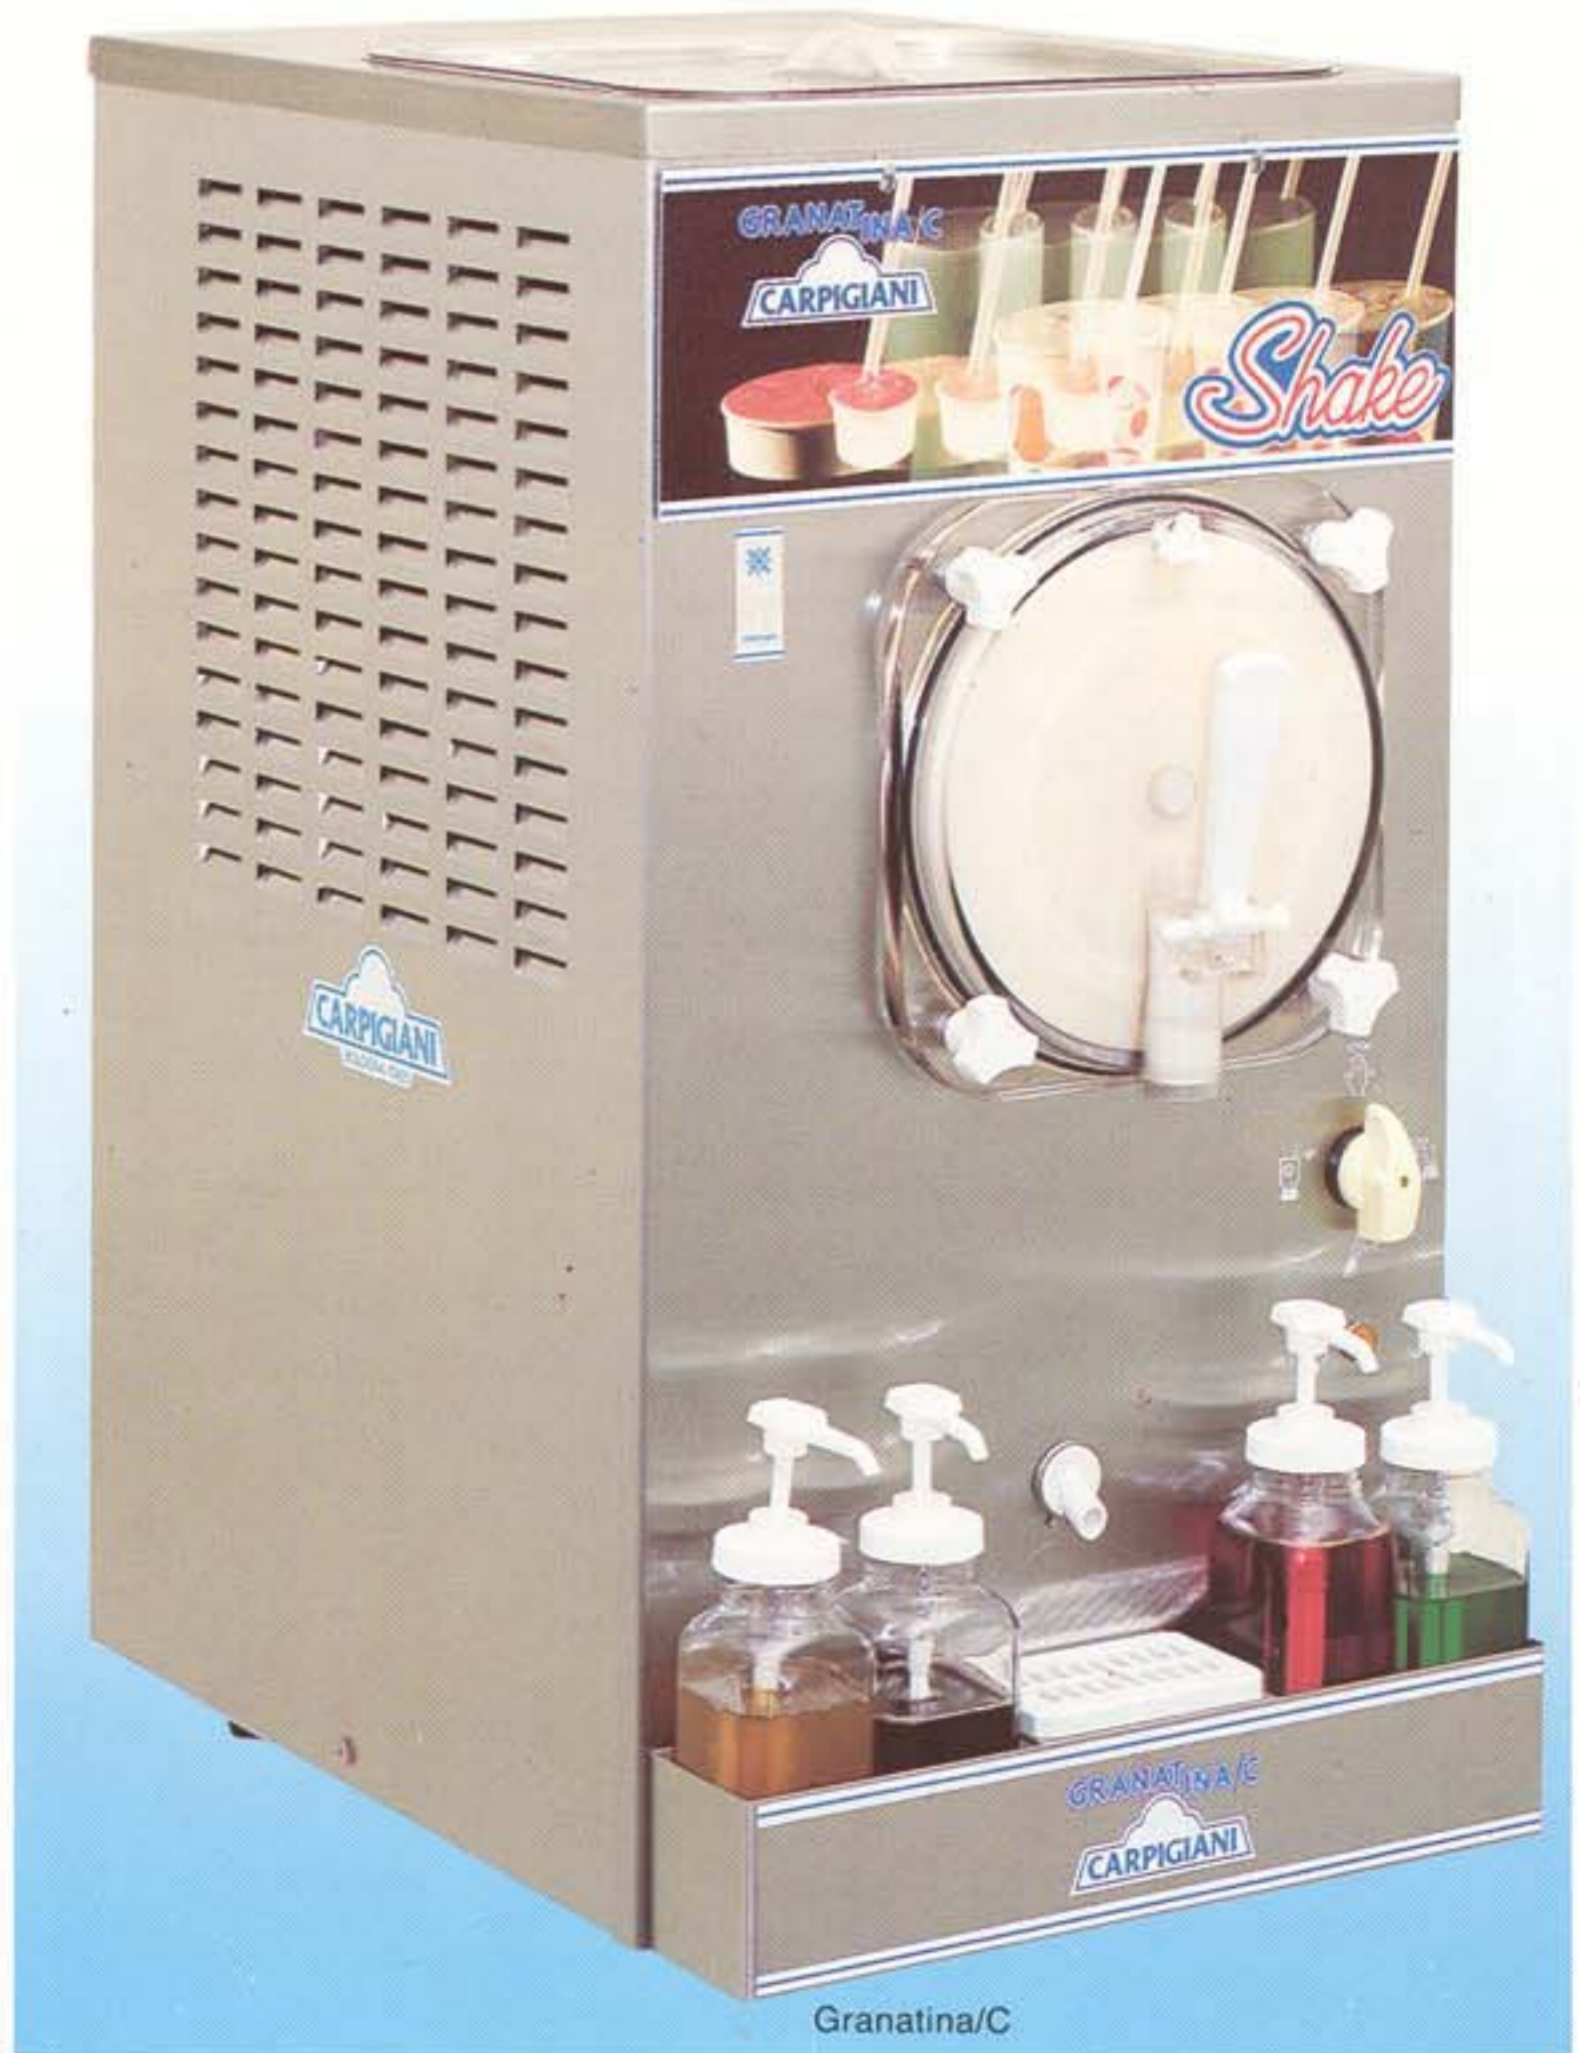

Just the thing for your younger customers!

Cold drinks: like daiquiri, piñacolada, caipiriña, etc.

Granatina/C makes hundreds of iced drinks in any colour.

Granatina/C

③ Insulated, see-through storage tank cover. (mix in the storage tank. ⑤ Patented H.O.M. (optional on request). ● Stainless steel side (international standards). ● Sound proofing

Technical data

Models	Hourly production *		Tank capacity	Power supply **			Install. power	Weight in kg.		Dimensions in mm.		
	slush kg.	shake kg.	lt.	Volt	Hz.	Ph	KW	Net	Gross	Width	Depth	Height
GRANATINA/C	20	28	8,5	220	50	1	0,8	80	87	420	610	800

* Hourly production may vary according to temperature and type of mix used.
