Frozen Beverages

CARPIGIANI | AIR

Frozen Beverages

Frozen Cocktails, Slushies and Frozen Drink Makers

V AIR

V AIR offers a diverse range of high-performance commercial frozen drink machines specifically designed for bars, pubs, clubs, and restaurants. Our machines uniquely handle alcohol-based beverages, ensuring perfect consistency and texture, setting them apart from other slush machines on the market.

Whether serving frozen cocktails, slushies, or milkshakes, our machines will boost your beverage service and attract customers with outstanding drinks. Experience quick payback and increased profits with our revolutionary, reliable, and efficient machines.

SMART & SMART +

The V AIR SMART is a compact, high-performance frozen drink machine, ideal for serving alcohol-based beverages in high-traffic environments. Unlike traditional slush machines, it's specifically engineered to handle alcohol, which acts as an anti-freeze, ensuring perfect texture and consistency in every drink. Its innovative Cyclic Reverse Technology prevents large ice crystals by reversing the mixer every 10 minutes, delivering smooth cocktails every time. Carpigiani's Vertical Ventilation Technology allows machines to be placed side by side, saving counter space. The SMART's 15-litre capacity and customisable design make it a versatile fit for any venue.

SMART

Frozen cocktail, mocktail and slush maker

THE NEW WAY TO MAKE FROZEN BEVERAGES AND SLUSH

The most advanced and compact professional slush machine available. It delivers cutting-edge innovation in a minimal footprint and can be custom branded to seamlessly integrate with your venue's décor and identity.

- **Fast Freeze:** Product ready in less than 20 minutes. Capable of slushing recipes with high alcohol content
- In addition to traditional frozen beverages, can serve **dairy-based and alcohol-based** products.
- Front door with bayonet system for **easier and faster cleaning**

Vertical Ventilation

R290a ECO Refrigerant

Fast & Easy Cleaning

25 LITRES LARGE Capacity

DREAM MACHINE FEATURES

- **Vertical Ventilation:** V AIR's Vertical Ventilation technology saves space and enables machines to be positioned side-by-side.
- **Eco-Friendly:** Utilises ECO refrigerant gas (R290), aligning with sustainability goals without compromising on performance
- **Sleek Design & Visual Appeal:** The V AIR DREAM includes an LED lighting feature that can be customised to match the colour of the drinks being served, or to align with the branding colours of the venue, creating an engaging atmosphere.
- **Quiet Operation:** Equipped with a direct drive cylinder mixer motor and a brushless hopper mixer motor that reduce noise, making it suitable for locations where noise is a concern
- **Specialised Alcohol Handling:** Unlike traditional slush machines, the V AIR DREAM is specifically designed to accommodate alcohol, which acts as an anti-freeze. This capability ensures that even alcoholic beverages freeze to the perfect consistency without issues.
- **Viscosity-Based Freezing Technology:** The DREAM features advanced technology from V AIR that focuses on the viscosity of the product rather than just temperature. This approach guarantees a consistently perfect texture in every serving, crucial for maintaining the quality and integrity of frozen cocktails.
- **Intuitive User Interface:** Comes with an intuitive display, making it easy for staff to operate and adjust settings as needed.
